OUR FLAG.

Up with the flag—the good old flag—
small out on the breeze.

Consecrated with their gore.

THE NEWSPAPER.

The old frame house was a quiet place,
pleasant look, the setting sun glowed
on the windows, over which the luxuriant
grape vines were carefully trained.
The open door at the farther end, with a
little morocco covered box in its hand,
which the attention had been fixed for
last hour. There was a man of middle
order—old Richard Heath—and aside
from his regular account books, which he
kept with scrupulous care, he always
set down in his little box, in the
morning, a few lines of verse, which he
sent to his wife, as a cheerful token,
which she would find in the morning.

About a week after this, as Mr. Heath
was moving one morning, he was surpris-
ed to find his wife coming down as if for
a visit.

"I am going," said she, "to spend the day
with Mrs. Brown; I have left plenty for you
at home, and so saying she walked rapidly
on."

Mr. Heath thought about it just long
enough to say to himself, "she don't go
often, but she is doing me a good turn,
and she is going to see Mrs. Brown, and
she is going to see Mrs. Brown, and she
is going to see Mrs. Brown, and she is
going to see Mrs. Brown, and she is going
to see Mrs. Brown, and she is going to
see Mrs. Brown, and she is going to see
Mrs. Brown, and she is going to see Mrs.
Brown, and she is going to see Mrs. Brown,
and she is going to see Mrs. Brown, and
she is going to see Mrs. Brown, and she

RESIDENCE—In the Grove, one
West of Mr. H. G. Gillespie's,
Belleville. April 13th, 1858.

TO the Canadian public, and more particularly the Female part of it, we are to say that we are now prepared to furnish them with a newly patented and valuable **WASHING MACHINE**. One that has never before been used in Canada, nor in any other part of the world within the last six or eight months.

It has two principles, viz: **PRESSURE AND KNUCKLE ACTION**, either of which can be used at the discretion of the operator. We would state for the information of all who are or may be interested in this very great improvement that at least of the time, labor, and soap saved which are usually consumed in

perfectly clean without the least damage, wearing or tearing even the finest damask collars: and the washing, sanding, and rinsing can be done in it, if you choose, without making any sloop or dirt whatever. The use of this machine does away with the necessity of boiling, and may be used and abused by any old lady or small girl, and is very easy, and only weighs about thirty pounds. A trial of it cannot fail to convince the most incredulous of its value as a saving machine. It can be put on the bench, chair or a barrel while boiling. These machines are now manufactured by J. W. P. & Co., Belleville, Canada West, by J. W. P. & Co.

N. B. One of those machines bought for the small sum of two po
shillings, and will soon be for sale t
the principal towns and villages in C
Belleville December 23, 1857.
